South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Alan Revis

South Carolina Public Service Commission

Dear Public Service Commission,

I don't understand why/Duke should be rewarded for raising rates on those of us who are still struggling to find food or a jobs when they are making amazing profits which are not used in ways which sincerely are invested in the cheaper renewable technologies which its executives claim to support.

I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Jeannette Hickman
